

BROMPTON

We want to change cities.

Right now, cities are congested, polluted and full of people not moving enough.

The bike is not the only solution but it is definitely part of it.

Even better a bike that you can take with you, wherever you go. With the introduction of Brompton Electric, there's now the option to go even further, or take on steeper hills without breaking a sweat.

Get out of the subway, metro or car. Start enjoying your city's streets and ride a bike.

Will Butler-Adams

Will Butler-Adams

CEO of Brompton Bicycle

A man in a dark blue jacket and jeans is riding a white folding bicycle on a city street. He has a black bag hanging from the handlebars. The background shows a busy urban environment with pedestrians, a tree, and a building. A sign on the building reads "No loading At any time except in signed bays".

MADE FOR CITIES

"...superbly easy to fold, brilliant compactness and a solid, energetic ride that's both comfortable and exhilarating."

SUPERLIGHT MADE FOR SPEED. MADE WITH TITANIUM.

A Brompton Superlight marries the classic steel mainframe with a titanium rear frame, front fork and other lightweight componentry to deliver high quality performance with excellent portability; the ultimate solution for getting around the city.

Superlight is available as a custom option on the Brompton Bike Builder or from stock at Brompton stores.

Toolkit

Our range of specially designed luggage attaches to the bike using the front carrier block system, making it easy to take on and off with a simple clip. A selection of styles and sizes are available to suit your needs.

SPECIAL EDITIONS

CHPT3 Edition

David Millar, ex-pro cyclist and Tour De France stage winner, first came to Brompton with the idea of designing 'A Brompton that even a die-hard roadie would ride' a couple of years ago. In 2017 we launched the CHPT3 Brompton; Superlight, with speed and style at it's essence. After 2 sell out runs, David and the design team are back at the drawing board... WATCH THIS SPACE.

Black Edition

Fast becoming a city staple, Brompton Black Editions are made in batches with the key components in black rather than silver, giving a sleek, urban look. Available in a restricted colour range and for 2019, all finished in gloss. Black Superlight also available as an option.

BROMPTON ELECTRIC

*"It's a delight to ride...
Brompton hasn't messed
with it's winning formula - its
just given it a turbo boost"*
